### **About Commonhouse Aleworks**

**Commonhouse Aleworks is a production brewery and tap house in the Park Circle neighborhood of North Charleston, SC delivering award winning, consistent beer in an inclusive and welcoming environment. The Commonhouse team does not just brew and sell beer. Rather, they love and believe in great beer — it's power to bring people together to find and celebrate what they share in common, as well as to have a positive impact on the communities served by their beer. That's why a portion of all Commonhouse proceeds go to local community impact organizations across it's distribution footprint. Commonhouse Aleworks — the uncommon beer for the common good.**
